

## **Reading Expectations**

It is very important for students to find time each day to read. During the time that you are away from school, I expect that you will continue to read for 30 minutes every day. You will then complete a reading log entry just like you would at school. Remember to include an opinion, a prediction, or a connection based on a specific event you read about each day. You can use your social studies novel for these entries.

**Bad example:** I like the book. (this is not specific at all)

**Good example (opinion):** It was funny when Greg's brother locked Greg in his room.

**Good example (connection):** The Loded Diper van reminds me of how my band in high school used to travel.
